

CENTRAL INTELLIGENCE AGENCY

WASHINGTON, D.C. 20505

Mr. G. Franklin Edwards
Acting Chairman
National Capital Planning Commission
Washington, D.C. 20576

Dear Mr. Edwards:

The Director has requested that I reply to your letter of 7 July 1970, subject: Submission of annual budget estimates for National Capital Planning Commission review in accordance with Office of Management and Budget Circular No. A-11.

The Agency has no plan for land acquisition, construction, or leasing in fiscal year (FY) 1972. There is, however, a proposal, presently in the design stage, to construct a motor pool garage facility on the Agency's Headquarters compound at Langley, Virginia. This building, which will consist of approximately 16,000 square feet, will replace currently leased commercial space located at a considerable distance from our Langley compound. Architect and engineering (A&E) services for this project are currently underway under General Services Administration auspices. Assuming satisfactory completion of the A&E and final approval for construction, funding will be programmed for FY 1972.

It is hoped that this information meets your requirements at this time. If I can be of further assistance, please let me know.

Sincerely,

R. L. Bannerman
Deputy Director
for Support
